## About your tariff

Price Promise Sep 2022 prices are fixed until 30 September 2022 at rates that are below the 1st October 2021 OFGEM Price Cap rates. You'll pay a daily standing charge and unit rate for each fuel on this tariff. We'll also add VAT. If you have a multiple rate electricity meter, you may have more than one unit rate. The price of your tariff won't go up or down unless you change your tariff, change how you pay us (for example you stop paying by Direct Debit) or the government or regulator does something or plans something that means the price must change. For example, changing the amount of VAT we must charge. We'll contact you if there is a change to your price.

## Environmental benefits from buying electricity on this tariff

We match the electricity you buy from us on this tariff with 100% renewable energy by purchasing Guarantees of Origin certificates (GoO) or Renewable Energy Guarantee of Origins (REGOs) certificates or both.

This means buying certificates that guarantee electricity has been generated from a renewable source to match the electricity that you'll use. We'll buy these when the tariff starts, and we'll check at the end of the annual compliance period to make sure that we bought enough GoOs or REGOs certificates or both to cover the electricity used. If you used more electricity than we originally bought and assumed you would use, we'll buy more certificates to cover what you did use.

The certificates are in addition to our legal obligations and schemes and separate from the existing subsidies. Please note, the electricity you use won't be the same energy that was generated from the renewable sources.

For more information about our fuel mix, environmental benefits which are in addition to our legal obligations, government support for renewable energy supply and how electricity is physically distributed go to [britishgasevolve.co.uk/about](https://britishgasevolve.co.uk/about).

## Paying for your energy

You'll need to pay by Direct Debit. Your prices may change depending on how you pay. If you pay by Direct Debit but miss any payments we can ask you to pay by bank transfer or by card payment and your prices would go up – we'll explain the difference when we contact you and you can find the details at [britishgasevolve.co.uk/evolve-terms](https://britishgasevolve.co.uk/evolve-terms). We'll contact you at least seven working days before changing how you pay.

## If we replace your meters with prepayment meters or mode change your meter to prepayment

If we replace your gas and/or electricity meters with prepayment meters, or mode change your meters to prepayment, we'll switch your tariff for each fuel on a prepayment meter to our cheapest tariff which is available to prepayment meter customers at the time. For any fuel which is not on a prepayment meter these existing terms will apply. We'll let you know if your tariff has changed because you have a prepayment meter.

## If you want to change your meter(s)

You need to contact us to discuss this. This tariff may not be available on another meter type.

## If you want to cancel or switch your tariff

You can switch to another supplier or tariff without paying an exit fee at any time. You don't have to give us any notice if you want to switch to another supplier.

## At the end of your contract

We'll contact you at a reasonable time before your **contract end date** so you can consider your switching options. If you don't switch tariff or supplier before your **contract end date** we'll move you to the cheapest default tariff (no exit fees) we have available to you at that time.

From the last 49 days before your **contract end date** if you decide to switch, you'll keep your current prices and terms and conditions until:

- You switch to one of our other tariffs (if available) no later than 20 working days after (but not including) 30 September 2022; or
- You switch to another supplier and they tell us you'd like to switch no later than 20 working days after (but not including) 30 September 2022. The other supplier then needs to supply your energy within a reasonable time after they told us you want to switch; or
- You try to switch supplier and you pay any outstanding supply charges for the fuel(s) you want to switch within 30 working days after we tell you we object to the switch.

## General

We'll only sell so many of these tariffs, and we might withdraw it.

Our terms and conditions of supply also apply. You can find them at [britishgasevolve.co.uk/evolve-terms](https://britishgasevolve.co.uk/evolve-terms). If there is any difference between what we say in these terms and conditions and the supply terms, what we say in these terms takes priority.
